

Sorry We Missed You!

BOARD OF WATER AND LIGHT TREE MAINTENANCE NOTIFICATION

Address _____

Date _____

To ensure your safety and maintain reliable electric service, the Board of Water and Light performs tree maintenance near power lines. Tree limbs that come in contact with power lines are a major cause of downed wires and loss in power.

A work planner inspected our electric line right of way and the results of the inspection show:

- Trimming is required (painted 'dot' on base of tree)
- Tree removal is required (red ribbon tied on tree)

- Please read and sign back of card

All removed brush and tree branches smaller than 4" in diameter shall be shipped and removed from the site. All timber larger than 4" in diameter shall be cut into handling lengths and stacked nearby for use by the property owner.

Thank you again for your cooperation. If you have any questions, or special circumstances (such as a dog in the yard or a locked gate), please call (517) 702-6552.

For review of the BWL Tree Maintenance Policy and Tree Clearing Guidelines, log onto www.lbwl.com.

Customer Comments:

Property Owner:

I, the undersigned, own the property described on the front side of this card, and acknowledge that Lansing board of Water and Light will be removing the described tree(s). I understand that the line clearance crew will apply an herbicide to prevent stump resprouting.
