

LOWER MY Bill

AS EASY AS 1, 2, 3 ...

Lansing Board of Water & Light's Lower My Bill Program.

The Lansing Board of Water & Light wants to help you lower your electric bill!

This program is FREE for residential electric customers and can begin to cut your bills by 5 to 10% or more—right away!

It's as easy as 1, 2, 3. Here's how it works:

1. An Energy Specialist will visit your home and identify where you can save money and energy—for example, in your basement, around your windows, with your appliances and electrical gadgets.
2. Our specialist will install energy-saving products, like Compact Fluorescent Lamps (CFLs). You may also qualify for more, such as a new fridge, dehumidifier, room air-conditioner and other energy-saving products.
3. You'll get a personalized report on how to cut down your energy usage to guide you in the future.

It's easy to sign up. Simply call the BWL at 517.702.6006 to enroll in the Lower My Bill program. That's it.

Call 517.702.6006 today and we'll set you up with a visit so you can begin to save energy! Don't wait. This program is available for a limited time.

Lower My Bill is free, convenient and will save you money.
