

Your Secret Weapon to Summer Comfort

If it feels like you just can't get comfortable no matter what your thermostat is set to, there could be something missing from your home's HVAC system: a whole-home dehumidifier. Dehumidification is an important step to ensuring that your home's air conditioning system is working efficiently. While air conditioners provide some dehumidification, there can be circumstances and times of the year where they just can't keep up.

Apart from comfort, having a dedicated dehumidification system can help your air conditioner run more efficiently and improve the air quality in your home. Unmanaged humidity can even contribute to damage to your home's structure (such as pests, warping of materials, or rotting). Managing your home's humidity levels is not just about being comfortable, but also having a healthy and safe home environment for you and your loved ones.

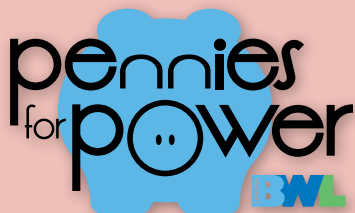

BWL residential electric customers are eligible for \$100 back for the purchase and installation of a qualifying ENERGY STAR® certified whole home dehumidifier. Not looking to make an upgrade to your home's HVAC system? A \$50 rebate is also available for ENERGY STAR certified room dehumidifiers. Learn more and apply for rebates at lbwl.com/HVAC or by calling our team at **800-573-3503**.

Medical Alert Form

If in-home medical equipment depends on electricity, sign up for our medical alert list. Call 517-702-6006 or go to lbwl.com/medicalalert.

Shut-off Protection

BWL customers at risk of shut-off are now eligible for Federal Low Income Home Energy Assistance Program (LIHEAP) and Michigan Energy Assistance Program (MEAP) funding assistance, and may also qualify for a winter protection payment plan. Seniors 65 and older, and low-income customers who sign up for a winter protection plan, are protected from electric shut-off during the heating season. Additionally, active military customers may be eligible for extended payment arrangements to prevent service disruption. Contact 211 for payment assistance information or the BWL to inquire about a payment plan.

Please join us in congratulating our **General Manager Dick Peffley** on **50 years of distinguished service at the Lansing Board of Water & Light!**
